MERCHANTS TROUBLES -

Bowmanville Satesman.

If everybody paid heir debts promptly the average ness and could sell his goods for less money. For varicabusiness man would have a much easier time doing busi tion of this ask any business man; he knows. Human nature is the same the wide world over, and therefore a news item from a southern city will be as much appreciated here as there.

Even though they might not care to give it their endorsement as a regular practice, honest folk will not be wanting in sympathy for the unusual courage taken by a Hagerstown, Md., grocer to explain, his insolvency. Smarting under the sting of having ben forced into bankruptcy, the man posted on his front door a list of the persons who he declared owed him money and stated that if they had paid their debts he would have been able to pay his. "These people forced me into bankruptcy", said the sign over the the names.

In the list, says the correspondent reporting the affair, were the names of some of the prominent housewives of the town. They were naturally, but not righteously indignant, and about twenty of the women stormed the shop and tore the sign down.

Of course it was humiliating to them to have their names exposed to the public gaze in this unpleasant way; yet, if the grocer told the truth—as he probably did—their shame was not undeserved. The bankrupt suffered worse than humiliation; he lost his business as a result of extending credit to persons who failed to meet their obliga-tions; and he can hardly be blamed for wanting to share his humiliation for it.

The incident is illuminating as an example of the manner in which the petty defacations in the aggregate affect business. Probably none of the grocer's debtors owed him more than a few dollars each. Yet in their total these bad Will Sell anything You have debts ruined him and his insolvency in turn will prove at least slightly embarrassing to his creditors. Misplaced trust may cause annoyance to far more than those directly concerned. Happily most people pay their debts; as otherwise it would be impossible to do business on a credit system, and without credit commerce would languish.

The southern housewives whose names were made

The southern housewives whose names were made public as defaulters are angry now; but no doubt down deep in their hearts they are also a little remorseful. They have been taught what the consequences of not paying even small debts may be. If they are more conscientious in meeting their obligations promptly hereafter the greer's revenge will have served a good purpose.

HOW ABOUT GLEICHEN

What is the matter with Gleichen? Nothing! Gleichen is the centre of a region that has been more ampwill not effect these flowers ly blessed in the past six months than any other in Canada

What does this mean for Gleichen? It means business, but say what we will Gleichen will grow or retrogress as the farm population surrounding it prospers or falls on evil days. There is no use arguing that point It is an incontrovertible fact..

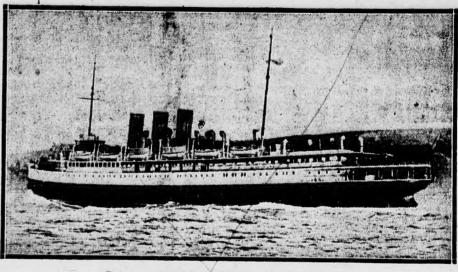

There is nothing the matter with Gleichen its prospects are brighter now than for many years. Its business structure is sound. With the high prices of wheat many farmers of the district have paid off many of their obligations, and have money to spend. They are going to spend it; not foolishly, nor in an orgy of useless purchasing, for the necessities and a few of the luxuries that the past few years of depression have depict them. Let's the past few years of depression have denied them. Let's all then as the poem says,, "be up and doing"... The clouds have rolled by, but if we keep our eyes on the ground we can't enjoy the sunshine..

For the benefit of our readers elsewhere in this issue we publish the financial satement of the Town of Gleichen or the past year. The publication of no authorized by the Town Council as the councillors felt they could not afford the expenditure as every other town in Alberta does; at least every exchange we get carries their town's financial statement. Therefore, we would not like to deprive our readers of this statement, especially as it compares most favorably with that of any to reach this office. In fact it is so much better than most of the towns that it might be used as publicity reading in boosting along our town. Look it over carefully and see the splendid condition of Gleichen in what many consider very "hard tmes".

Advertising creates good-will, not unrelated units, but in the mass. It fosters, and even commands, fair dealing.

Advertising established the confidence of the dealer and consumer alike, not by hundreds, but by millions. And, advertising like any other form of creative energy, works best and produces most, when under ex-

perienced direction and intelligent restraint. Along about this season of the year the old man is inclined to doubt whether there is a difference of even one letter between Pa and pay.

Princess Kathleen Makes Maiden Voyage

On her preliminary trials the "Princess Kathleen", built at the Clydesbank yards of John Brown and Company for service on the Canadian Pacific run between Vancouver, Victoria and Seattle, accomplished all that was expected of her, and the Canadian engineers and other officers who conducted the trials and who will bring this and a sister ship, the "Princess Marguerite", still under construction to Vancouver, expressed themselves as being entirely satisfied. With a speed of 22½ knots the new steamships will considerably reduce time between ports. Built with the object of speeding up and affording even better and more convenient service than is now offered, the two Princesses will be, without a shadow of doubt, the most elaborate yet tastefully heautiful vessels operating on the Pacific Coast. Three hundred and sixty-eight feet in length, their lines were specially designed for the service to which they will be put and those who have seen the new vessels describe them as being beyond comparison with any others of their kind. Five decks are given over to the accommodation of the passengers, whose private quarters and public rooms are most spacious and luxuriously fitted up. The "Princess Kathleen" sailed from the Clyde on January 15, expecting to complete the journey to Vancouver in about thirty days, her route being via the Azores, the West Indies and the Panama, where she will pick up fuel oil. She will be placed in passenger service soon after her arrival. The "Princess Marguerite" is scheduled to leave the Clyde on March 15.

Value of Kota Wheat

Cobb Denies Report

One Good Cow is worth Two Poor Ones

RELIABLE statistics show that the average cow produces only 3,000 lbs. of milk and 100 lbs. of butter in a year.

By the careful selection of bettergrade animals for your herd and better feeding, the yearly production of mil!: and butter can be doubled easily. resulting in increased profit to the dairy farmer.

Weed out the culls, breed by a good sire and save your best heifers.

Our Farmer's Account Book provides for a record of your milk production. Ask the Manager for a copy.

Ibanez Is Ready To Fight A Duel

Menione, France.—"Alfonzo and Primo De Rivera, whom I have attacked in my writings, are the only two men I will fight in a duel. Vicente Blasco Ibanez, the Spanish author, made this declaration when informed of the numerous challenges emanating from Spain from various personages mention ed in his book who are desirous seeking satisfaction at arms "I need not fight all these people to prove my courage," Ibanez con tinued. "I have already fought nine duels, either with pistols or swords, and two of my opponents were seriously wounded, one of them being at the point of death for several days."
